Professional Summary

Frontend Developer with 4+ years of experience building responsive and scalable web applications using React and TypeScript. Skilled in developing reusable UI components, integrating REST APIs, and optimizing frontend performance. Experienced collaborating with designers and backend engineers to deliver intuitive user experiences across modern web platforms.

Technical Skills

- **Languages:** JavaScript, TypeScript, HTML5, CSS3
 - **Frontend:** React, Redux, Context API, React Query
 - **Build Tools:** Vite, Webpack, Babel
 - **Styling:** Tailwind CSS, SCSS, Material UI
 - **API Integration:** REST APIs, Axios, Fetch API
 - **Testing:** Jest, React Testing Library
 - **Version Control:** Git, GitHub
 - **Other:** Responsive Design, Cross-Browser Compatibility, Performance Optimization
-

Work Experience

Frontend Developer

TechNova Solutions — Remote

Jan 2023 – Present

- Developed reusable React and TypeScript UI components for a SaaS dashboard used by over 20,000 users

- Integrated REST APIs for authentication, analytics, and real-time reporting features
- Improved frontend performance by reducing bundle size by 30% using Vite optimizations and lazy loading
- Collaborated closely with UI/UX designers to implement responsive and accessible interfaces
- Ensured compatibility across Chrome, Firefox, Safari, and Edge browsers

Junior Frontend Developer

BrightLabs Digital — Austin, TX

Jun 2021 – Dec 2022

- Built responsive web pages and interactive features using React and JavaScript
- Assisted in migrating legacy frontend codebase from Webpack to Vite
- Implemented state management using Redux Toolkit and Context API
- Worked with backend engineers to connect frontend applications with RESTful services
- Fixed UI bugs and improved application responsiveness on mobile devices

Projects

E-Commerce Dashboard

- Built a responsive admin dashboard using React, TypeScript, and Tailwind CSS
- Implemented product management, analytics charts, and API-driven order tracking
- Added role-based authentication and optimized rendering performance

Task Management App

- Developed a Trello-style productivity app with drag-and-drop functionality
- Used React Query for API caching and state synchronization
- Configured Webpack and code splitting for faster page loading

Education

Bachelor of Science in Computer Science
University of Texas at Austin
2017 – 2021

Certifications

- Meta Front-End Developer Certificate
 - JavaScript Algorithms and Data Structures Certification
-

Additional Information

- Experience working in Agile/Scrum teams
- Strong understanding of UI/UX best practices
- Comfortable collaborating in cross-functional remote environments
